

Angular

Chapter 1 : Getting Started

Chapter 2 : The Basics

Chapter 3 : Course Project – The Basics

Chapter 4 : Debugging

Chapter 5 : Components & Databinding Deep Dive

Chapter 6 : Course Project – Components & Databinding

Chapter 7 : Directives Deep Dive

Chapter 8 : Course Project – Directives

Chapter 9 : Using Services & Dependency Injection

Chapter 10 : Course Project – Services & Dependency Injection

Chapter 11 : Changing Pages with Routing

Chapter 12 : Course Project – Routing

Chapter 13 : Understanding Observables

Chapter 14 : Course Project – Observables

Chapter 15 : Handling Forms in Angular Apps

Chapter 16 : Course Project – Forms

Chapter 17 : Using Pipes to Transform Output

Chapter 18 : Making Http Requests

Chapter 19 : Course Project – Http

Chapter 20 : Authentication & Route Protection in Angular

Chapter 21 : Dynamic Components

Chapter 22 : Angular Modules & Optimizing Angular Apps

Chapter 23 : Deploying an Angular App

Chapter 24 : Bonus: Working with NgRx in our Project

Chapter 25 : Bonus: Angular Universal

Chapter 26 : Angular Animations

Chapter 27 : Adding Offline Capabilities with Service Workers

Chapter 28 : A Basic Introduction to Unit Testing in Angular Apps

Chapter 29 : Angular Changes & New Features

Chapter 30 : Course Roundup

Chapter 31 : Custom Project & Workflow Setup

Chapter 32 : Bonus: TypeScript Introduction (for Angular 2 Usage)
