

Node.JS

- ✚ Introduction
- ✚ Chapter 1: Optional: JavaScript - A Quick Refresher
- ✚ Chapter 2: Understanding the Basics
- ✚ Chapter 3: Improved Development Workflow and Debugging
- ✚ Chapter 4: Working with Express.js
- ✚ Chapter 5: Working with Dynamic Content & Adding Templating Engines
- ✚ Chapter 6: The Model View Controller (MVC)
- ✚ Chapter 7: Optional: Enhancing the App
- ✚ Chapter 8: Dynamic Routes & Advanced Models
- ✚ Chapter 9: SQL Introduction
- ✚ Chapter 10: Understanding Sequelize
- ✚ Chapter 11: Working with NoSQL & Using MongoDB
- ✚ Chapter 12: Working with Mongoose
- ✚ Chapter 13: Sessions & Cookies
- ✚ Chapter 14: Adding Authentication

- ✚ Chapter 15: Sending Emails
- ✚ Chapter 16: Advanced Authentication
- ✚ Chapter 17: Understanding Validation
- ✚ Chapter 18: Error Handling
- ✚ Chapter 19: File Upload & Download
- ✚ Chapter 20: Adding Pagination
- ✚ Chapter 21: Understanding Async Requests
- ✚ Chapter 22: Adding Payments
- ✚ Chapter 23: Working with REST APIs - The Basics
- ✚ Chapter 24: Working with REST APIs - The Practical Application
- ✚ Chapter 25: Understanding Async Await in Node.js
- ✚ Chapter 26: Understanding Websockets & Socket.io
- ✚ Chapter 27: Working with GraphQL
- ✚ Chapter 28: Deploying our App
- ✚ Chapter 29: Testing Node.js Applications
- ✚ Chapter 30: Node.js as a Build Tool & Using npm
- ✚ Chapter 31: Modern JavaScript & NodeJS

🚩 Chapter 32: NodeJS & TypeScript

🚩 Chapter 33: An Introduction to Deno

🚩 Chapter 34: Deno, CRUD & Databases (MongoDB)
